

The Abundance Program

This program is based on John Randolph Price's book the Abundance Book. It is a program that teaches you how to get in touch with your true feelings about money. It teaches you that money isn't your true source but the omnipresence of God is true wealth. God is your lavish unlimited prosperity

If you have beliefs that are keeping you from being abundant and prosperous then you are cutting yourself off from your source and your birthright of Divine inheritance. You are just as rich as anyone who ever walked this planet. All the gold and silver is yours. All the material wealth on this planet is yours and all the money is yours. Just because you are not aware of this doesn't change the fact that you are rich and wonderful, warm, living, loving money is yours.

Why, are you so rich is because God is and it is God's 'will' for you to be rich and express these riches through you. You are God's 'will' made manifest. Allowing yourself to be rich allows God to express and expand this glorious creation. There are many references to this in all different religions and cultures stating that God wants you to prosper.

Many people may believe that the love of money is the root of all evil. It isn't money that is evil but the worship of money. We are not here to worship money but to get to the source of money. We are going to get to the consciousness of the source of money. We are going to love and adore the cause of money. The Divine source within. We are going to use the effect of this Divine love to live our lives more harmoniously. Also, wealth can be traced back to mean Good. So your wealth is your **good** whatever you conceive it to be. God the all providing universe wants only good for you so it is your right to be wealthy. God is the wealth of the universe and we are that wealth individualized. God knows only abundance and has no conception of lack.

Before we can create wealth and prosper let's clean out some of these old patterns of lack consciousness. Jesus said, first you must clean the inside of the cup so the outside may be cleaned. What this means is, if you want to change the outer condition you must change the inner condition.

All of the negative beliefs and things that happen to you are because you accepted the truth of these beliefs. No one has ever done anything to you or at you without you accepting those things first. There is no one to blame. But now is the time to change your thoughts and get rid of these old feelings, and beliefs. If you experienced a shortage in money it is because you have accepted a belief in lack and limitation. You have accepted that lack is a normal part of your life. We then run around trying to get money, to get wealth and to get more material stuff. When all the time we are putting the cart before the horse. The consciousness of wealth must come before the physical manifestation and not before it. Wealth is the consciousness of your being.

If you are facing lack in any area of your life you may say that you believe in God and you expect a miracle. You may be able to convince yourself but if you are truly honest with yourself you will see those old patterns of fear and doubt & your acceptance of lack as your natural state of being.

We are going to do an exercise that will help you get to the root of your thoughts and belief about money. This exercise was taught thousands of years ago to demand what dark secret is hiding in your sub-conscious mind. This exercise is based on thought and energy transference to an object. We will be conveying our sub-conscious belief into the object to allow it to tell us what hidden feelings we have about this object.

Let's do that now with our money. Take out a bill of any denomination. This bill will represent all the money you have ever had up to now. This money will also represent your consciousness of belief you ever had about money. Whatever appears is still in your consciousness and should be able to tell you what is blocking you from having more money in your life.

Exercise:

Before we get started get a piece of paper and pen to write down some answers to questions we will be doing.

I would like you to find a comfortable place and allow yourself to relax. Letting go of all the intentions and thoughts of the day. Close your eyes and focus on your breathing. Taking in a few breathes, inhaling in through your nose and exhaling through your mouth. As you exhale continue to allow yourself to relax.

As you relax be open to allowing yourself to hear and understand what you hear. Now, open yourself and hold the bill in your hands. Focus your intention on the bill and just stare at this bill. Now, silently tell it that you recognize it to be Spirit, substance in form. Tell it, it is alive and conscious of itself. Now, tell it that you are now transferring your sub-conscious feelings and thoughts about money to it. Just say, I am now transferring my subconscious thoughts and feelings about money to you. Now, in your mind's eye see a stream of energy flowing out of your solar plexus and totally saturating the bill. See or feel that stream of energy flowing out of your solar plexus and going onto you're the bill, money.

Now, to open your channels of communication I am going to give you some questions to mentally ask your money. Write down the first thing you hear. You will have a couple of seconds to write down the first thing you hear. You can go back later and spend more time to get more details. For right now just write down the FIRST thing you hear or feel.

Here is the first question to ask your money.

1. How would you describe my attitude toward you?
2. Do I fear you? And, if so WHY?
3. Have I ever abused you? And, if so HOW?

For the next question you will see a number. A number will flash on the screen of your mind. That is the number you will write down on your paper.

4. On a scale of 1-10. 1 being the lowest and 10 the highest. How would you measure my integrity as it relates to money? Write the number down.
5. Do you feel that I am a responsible person in regards to money?

For the next question, this question will be an opened ended question. You may want to take a few moments and write everything that comes up for you.

6. What other information do you have for me regarding my feelings and attitude toward money?

Take a good look at your answers and you will have answers regarding what your hidden feelings are in your relationship to money.

As we go through this program you will have a better understanding, improved awareness and knowledge of how your negative feelings are affecting your outcome with money.

We are now going to discuss some principles that relate to money. As we go through these principles keep in mind that you and God are ONE. You are God in manifestation. It is time to break through your lower self and let your God-Self bring peace within your walls and prosperity within your palaces. It is your higher soul, the Christ within, spirit of God, the master consciousness whatever term you choose to use, is forever thinking thoughts of abundance. Which is its' true nature. Since thoughts of lack or limitation can never be entertained in the infinite mind then the principle or the law of supply will be one of total and continued all sufficiency. Your 'self' thinks, sees and knows only abundance. And, the creative energy of this mind of abundance is eternally flowing, radiating, expressing and seeking to appear as abundance on the physical plane.

This radiating creative mind energy is substance, as this Divine mind flows through your consciousness out into this world to appear as prosperous in conditions. It allows it to be impressed by the tone of your dominant beliefs. There for what you see, hear, feel,

and taste are your beliefs. They are your beliefs and appearance. We are told not to judge by appearance. Judging by appearance has no effect on the Divine all presence but only on the judgement "You" give it.

Now money is an effect. When you focus on the effect and not the cause, then the effect starts to dam up the flow. When you focus on getting money you are actually shutting off your supply. You must at this very moment stop believing that money is your supply, or your support, or your security or your safety, or your success. Money is not but God, the Universe is. Money is only the effect of the Divine source. When you start believing in this truth then you will start the flow of abundance prosperity. It flows in perfect manifestation. Money is an outer symbol of the inner supply. If you say that money has power, you have given over your power.

This day _____ I cease believing in visible money as my supply and my support. I view the world of effect as it truly is, simply the out picturing of the power of belief. I acknowledge God as my substance, my supply and my support.

40 Days

Day 1: God is lavish unfailing abundance the rich omni present substance of the universe. This all providing source of infinite prosperity is individualized as me. As my divine consciousness the reality of me.

Day 2: My soul is the direct expression of this the master mind "I am" and the purpose of my soul is to be conscious, to be aware, to understand and to know that the Divine presence "I am" is the source and substance of all my good.

Day 3: When I am conscious of the inner presence as my lavish abundance and when I am conscious of the constant activity of this mind of infinite prosperity within me. My consciousness is filled with the light of truth.

Day 4: Through my consciousness of my God-Self the Christ within as my source I draw into my mind and feeling nature the very substance of spirit. This substance is my supply. Thus my consciousness of the presence of God within me is my supply.

Day 5: Money is not my supply. No person, place, or condition is my supply. My awareness, understanding, and knowledge of the all providing activity of the Divine mind within me is my supply. My consciousness of this truth is unlimited. Therefore my supply is unlimited.

Day 6: My inner supply instantly and constantly takes on form and experience according to my needs and desires. Therefore as the principle of supply in action it is impossible for me to have any needs or unfulfilled desires.

Day 7: The Divine consciousness that I am is forever expressing its true nature of abundance. This is its' responsibility **not mine**. My only responsibility is to be **aware** of this truth, therefore I am **TOTALLY** confident in letting go and letting GOD appear as the abundant all sufficiency in my life and affairs.

Day 8: My consciousness of the spirit of God within me as my unlimited source is the Divine power to restore the years the locust have eaten. To make all things new, to lift me up to the high road of abundant prosperity. This awareness, understanding, and knowledge of spirit appears as every visible form and experience that I could possibly desire.

Day 9: When I am aware of the God-Self within me as my total fulfillment then I am totally fulfilled. I am now aware of this truth. I have found the secret of life and I relax in the knowledge that the activity of the Divine abundance is eternally operating in my life. I simply have to be aware of the flow, the radiation of that creative energy which is continuously, easily, and effortlessly pouring forth from my Divine consciousness. I am now aware. I am now in the flow.

Day 10: I keep my mind and thoughts off this world and place my entire focus of God within as the **ONLY** cause of my prosperity. I acknowledge the inner presence as the only activity in my financial affairs as the substance of all things visible. I place my faith in the principle of abundance and action within me now.
