

The Unlimited Network Practitioner's Path

The opportunity as an Unlimited Practitioner is for you if you are looking for a path helping people learn to make their dreams come true, or if you are in the healing professions and you would like to expand your services with powerful new methods.

In Unlimited Healing, the Practitioner is the heart and soul. This level is where people work one-on-one with people to get a better life. This is the shift that says "I am not only willing to take responsibility for my personal life but am willing to take responsibility for what I create with others." This is the first step that says "I am a professional with something important to share." The Practitioner is an independent entrepreneur willing to create the world he/she wants to live in.

Unlimited Network is a company created with a vision to help all of us lives to our true potential. It is the organization behind Unlimited Healing that oversees the development and training of Independent Unlimited Practitioners.

In Unlimited Healing, as with most professions, there are different levels of understanding and mastery. To recognize those who have achieved more knowledge and proficiency, and to support others by providing a path to greater skill, we have different levels of Practitioners. Because it is a challenge to quantify skills that are essentially experiential or based on the art of the practice, we have established objective and subjective criteria with emphasis on the objective.

It is important to note that the below criteria are minimum standards. There is great benefit to be gained from taking advanced Unlimited Workshops to broaden one's knowledge. Additionally, participation in Unlimited Network international and other events will tremendously expand perspective and understanding. These standards are designed to recognize people dedicated to learning this discipline and to provide a clear path to others who wish to attain this level of knowledge. It is not a hierarchy of importance, since we are all already perfect and equal.

In Unlimited Network we are connected, supported and promoted, promoting" you as a Practitioner rather than certifying you. To promote you as a Practitioner and support you towards giving the quality sessions we want to stand up behind, we are offering Practitioners a new Conscious Path to walk.

To be a Practitioner you need to commit to becoming a Master Practitioner. This means that to be called "Practitioner" is a stepping stone towards being the Master Practitioner you can be and that we want you to be.

Many of us thought that taking a Six-Series Workshop and the Practitioner's Training was enough to be a great Practitioner. It is clear however, that to be a good professional in your practice, like in any other field, you need to spend many years, with a tremendous amount of dedication and appreciation for your journey, in order to feel confident and have the success you deserve.

What all our modalities have in common is to not be intrusive; to offer enough safety and trust to allow our Natural State to "move through us" and do the work that needs to be done. To be unobtrusive is not easy when we are so accustomed to "know" what is right and wrong; when we engage from our minds instead of from our Presence. When you start "waking up" and feel more "attracted" to your Natural State than to who you "think" you are (or others are), with its world of fear, fixing, not enough, etc., is when you can give suggestions and guidance to your clients that will empower them and help them to realize their true Essence.

To realize that who we are in Essence is already here, already fulfilled, already healthy, already abundant, and already safe, etc., is a journey. When you are consciously committed to your own awakening, this is when you can offer better and better sessions.

Besides having the support from the Love and the Presence that we are, I believe we need guidance and years of practice to let go of any “idea” we have to make the session “better” or to “heal” our clients. In the past many of you came with great ideas to improve or make your practice better by adding “external” powers like special nutrition or vitamins, channeling, angels, stones, Ascended Masters or other kinds of energy. Having a lot of respect for other modalities, including the Medical Field I come from, and knowing that all can be appropriate depending on the moment, I have to say that for me and Unlimited Network, there is nothing more powerful than who we Really Are. To discover that and to offer that to others through our practice is our goal and is what we call Unlimited Practice.

I invite you to be in alignment with what we stand up for in Unlimited Network and use being an Unlimited Practitioner as your Conscious Practitioner’s Path.

If you choose to walk this Conscious Practitioner’s Path, included with this letter are the steps to take. Remember that you are not alone; that you are an important part of a Conscious Community where we all walk together in this powerful and responsible journey, surrounded by people that choose to have the same goal of awakening, that speak the same language, and are not going to let you entertain yourself in “strategies” of suffering.

Continuing Education: To maintain your Master Practitioner level you need to nurture your profession with Continuing Education through taking a minimum of one Practitioner's Training every five years.

***Support Suggestions:** Teaching Sessions and Coaching Sessions can help you feel confident and guide you to do good sessions.

◆ **The Teaching Sessions**

- The Practitioner gives a Teacher a session. The Teacher gives guidance and feedback.
- The Practitioner sets this session up and pays the Teacher directly.

◆ **The Practitioner's Coaching Series**

- The Practitioner chooses a Master Practitioner to be their Coach.
- The Practitioner takes an actual, paying client through "Ten Sessions" of his/her modality.
- The Coach gives a 1/2 hour phone consultation before the Practitioner's session, reviewing technique, topic, application and any personal process for the Practitioner and/or the client. Within 24-hours after the session, the Coach and Practitioner review the session by phone or e-mail. The Coach may also give homework, or support the Practitioner in other ways.
- The price for the **Practitioner Coaching Series** is \$1500, paid directly to the Coach before the start of the series.

The Unlimited Practitioner's quality control:

If an Unlimited Network receives complaints about a Practitioner, Unlimited Network will evaluate them and decide about the Unlimited Practitioner's continuing status.

Requirements to be an Unlimited Coach
